

Scope Worksheet:

What are the target organization's biggest security concerns:
(Examples include disclosure of sensitive information, interruption of production processing, embarrassment due to website defacement, etc.)

What specific hosts, network address ranges, or applications should be tested:

[illegible]

What specific hosts, network address ranges, or applications should explicitly NOT be tested:

List any third parties that own systems or networks that are in scope as well as which systems they own (written permission must have been obtained in advance by the target organization):

Will the test be performed against a live production environment or a test environment:

Will the penetration test include the following testing techniques:

Ping sweep of network ranges: _____

Port scan of target hosts: _____

Vulnerability scan of targets: _____

Penetration into targets: _____

Application-level manipulation: _____

Client-side Java/ActiveX reverse engineering: _____

Physical penetration attempts: _____

Social engineering of people: _____

Other: _____

Will penetration test include internal network testing: _____

If so, how will access be obtained: _____

Are client/end-user systems included in scope: _____

If so, how may clients be leveraged: _____

Is social engineering allowed: _____

If so, how may it be used: _____

Are Denial of Service attacks allowed: _____

Are Dangerous checks/exploits allowed: _____

Signature of Primary Contact representing Target Organization
